It is very little doubt that the alleged  
in Mexico, Brazil and other countries  
of us, over danger of the annexation  
whole of South and Central America  
United States, is the work of men in  
country who are trying to work up an  
expansion sentiment.

A reception to be given to Admiral  
on his arrival at New York is to cost  
a quarter of a million dollars, while  
and to build him a house has reached  
\$20,000, or thereabout. This is a strik-  
ingly, and it illustrates one phase of  
an nature.

A man of ordinary intelligence could see  
Bourke-Cockran attended the Chicago  
session of last week as a representative  
to trusts. Cockran's talents are always  
able to the highest bidder. If there was  
any cash offered he would not hesitate  
to the role of Benedict Arnold.

Arizona the other day a man was ar-  
rested as a lunatic because he believed he  
the possessor of a mine of great value.  
It's a very common complaint in these  
parts. The state asylum could not accom-  
modate all the people in El Paso who believe  
they have a mine worth millions.—Times.

An examination of a sample of roasted  
iron ore seized in Paris, says an ex-  
change, showed them to be entirely artificial.  
Chemical analysis disclosed ash, gum, dex-  
trin, etc., and the microscope showing  
lines of wheat, starch, vegetable debris  
animal's hairs. The berries were beau-  
tifully moulded.

As Chicago has a "Woman's Improvement  
association." The association is not so  
much for the improvement of women as for  
the improvement of the town. We need  
nothing of the latter description in this  
city very much, and it is to be hoped that  
another winter will not be allowed to pass  
without the formation of such an associa-  
tion.

A RECENT New York dispatch says: The  
ent trust has made another advance in  
value. Pork has almost doubled, and veal  
has advanced 25 per cent, at the command of  
the greedy combine. Loin of pork now costs  
40 cents a pound, and veal 18 cents where formerly it was  
only 6 cents a pound. By the same command  
veal is 12 and 13 cents a pound, while a year  
ago it was 7 and 8 cents. The butchers  
throughout the city were compelled, owing  
to these advances, to raise veal and pork  
from 2 to 3 cents a pound to consumers. The  
New York Retail Butchers' Mutual Protec-  
tive Association held a meeting last Tuesday  
night to take decisive action regarding the  
building of an abattoir.

ATTORNEY-GENERAL DAVIS, of Arkansas,  
complains that the judiciary department of  
our government is invading the province of  
the legislative. He even speaks of civil war  
as a possible result of what he is planned to  
call "Judge made law." With all due respect  
to Mr. Davis, we are of the opinion that if all  
the states of the union and of the nation it-  
self had to depend upon such fool legisla-  
tures as his, the future of our country would  
indeed be dark. It is only the judiciary with  
their common-sense interpretations of foolish  
laws and their constant care for the  
preservation of the fundamental principles of  
right and wrong, that stand between us  
and ruin. The members of our state legisla-  
ture are fondly called our "representatives."  
If they represent anything it is the dumb  
efficiency of the boundless ranges, the dumb  
settles of doubtful ancestry.

## Copper Colored Spotches.

There is only one cure for Contagious  
Blood Poison—the disease which has  
completely baffled the doctors. They  
are totally unable to cure it, and direct  
their efforts toward bottling the poison  
up in the blood and concealing it from  
view. S. S. S. cures the disease posi-  
tively and permanently by forcing out  
every trace of the taint.

I was afflicted with a terrible blood disease,  
which was in spots at first, but afterwards  
spread all over my body. These spots broke out into  
sores, and it is easy to  
imagine the suffering I  
endured. Before I be-  
came convinced that the  
doctors could do my good,  
I had spent a hundred  
dollars, which were really  
thrown away. I then  
tried various patent  
medicines, but they did  
not reach the disease.  
When I had finished my  
first bottle of S. S. S., I  
was greatly improved  
and was delighted with  
the result. The large red  
spots began to grow paler  
and smaller, and before  
long disappeared entirely. I  
regained my lost weight,  
became stronger, and my  
appetite greatly improved.  
I was soon entirely  
well, and my skin as clear  
as a piece of glass.

Don't destroy all possible chance of a  
cure by taking the doctor's treatment  
of mercury and potash. These minerals  
cause the hair to fall out, and will  
wreck the entire system.

## COPPER IS THE METAL.

The Cochise Copper Mining Company,  
Bisbee, Arizona.

This company owns a very valuable  
group of mines situated in Warren  
mining district, county of Cochise,  
Arizona, lying immediately east of and  
adjoining the town of Bisbee, and ad-  
joining the property of the Copper  
Queen Consolidated Mining company  
on the north. The latter company has  
been in operation for about twenty  
years, and employs about 1,500 men  
daily in the operation of its mammoth  
mine and smelters, and as a result  
has produced copper to over 34,000,000  
pounds during the year 1898, and the  
net proceeds of such production are  
reported to have been over \$2,000,000,  
and it has been said by experienced  
miners who have been under its em-  
ploy for years, that the Queen mine  
now has sufficient ore in sight to keep  
it in constant operation for the  
next twenty years without further de-  
velopment.

It is not reasonable to believe that  
the property of the Cochise company is  
fully as valuable, when it is within  
such close proximity to such a won-  
derful mine?

The blasts set off in the underground  
workings of the Queen property can  
easily be felt and heard at the shaft of  
our mine, and oftentimes the concussion  
has attracted marked attention.

The original owners of these valu-  
able mines are local business men, well  
and favorably known in Bisbee and  
surrounding vicinity, who are doing  
their utmost to make this enterprise a  
success in every respect. The board of  
directors are original owners, and are  
donating their services to the com-  
pany until such time as the mine will  
pay dividends. They own the con-  
trolling interest in this property, and  
as a protection to stockholders have  
placed their entire interest in escrow  
for a term of one year.

The stock books of our company are  
now open for subscriptions, and a lim-  
ited number of shares are offered at  
ten cents per share. No application  
for less than 100 shares will be ac-  
cepted.

The company reserve the right at  
any time to advance the price of shares  
without further notice, or to reject any  
application for stock at their discre-  
tion.

Every cent received from the sale of  
stock will be expended toward the de-  
velopment of our property and the  
erection of hoisting works, and all  
other necessary improvements, and to  
make our enterprise a success in every  
particular.

We invite investigators and their  
experts or their engineers to closely  
scrutinize our property.

Applications for shares may be made  
to any of the directors of the com-  
pany, or to any of our legally author-  
ized representatives.
